Note 3(a)

The Estimated cost of the student's Hostel at Bangalore which is approaching completion amounted to Rs 62909 (or Rs 63000 nearly in round numbers) This was sanctioned in the year 1898 (Feb) vide Extract from the monthly vol putup (sl no 8(a))

Mr Cook the Principal of the Central College in his present communication points out that the above Estimate did not take into consideration the items (noted in the margin) which are necessary to complete the equipment of the Hostel The amount of additional cost comes up to Rs 11,228 (estimated) and the actual requirements would be somewhere between Rs 11000 and 12000 The Chief Engineer has informed Mr Cook that this Extra amount could not on account of financial pressure be made available from the P W D

All the items (except perhaps
3 and 5) are of a very urgent
nature. The House cannot well
be started without some of them

As neither the DPW nor the
Edn Budget can bear the
extra cost, a supplemental
grant seems necessary
If items 3 & 5 are deferred
for the present, the reduced grant
will be Rs 6227.

Equipment of the Central College Hostel

(Sl No of the file)

The items pointed out by the Principal, of the C College, Bangalore towards the equipment of the Hostel in question were not sanctioned in entirety Only Rs 2112 and Rs 315 being the amounts reported to be required for furniture and Cooking utensils were sanctioned from the General Savings of the Edn Budget of the current official year The other items were ordered to be provided for in the D C's Budget for the next year

Mr Cook now contends that the amount Rs 315 Sanctioned for Cooking utensils is too inadequate. and

He points out that the amount sanctioned for this purpose for the Maharaja's College Students' Home at Mysore was Rs 1370 / as per details given in his letter No 238 of the 27th November 1900 and is of opinion that a proportionately larger amount (than Rs 1370) will be required for the Bangalore Hostel.

The vessels etc bought for the Maharaja's College Students' Home, Mysore were for the use of the three Kitchens —

(1) Brahmin Kitchen Rs 672-0-0

(2) Non Brahmin vegetarian kit 283-0-0

W. Cook in his

the cost of the Kitchen
utensils req'd for the
Hospital would have been
estimated by the

Rs. 315/ this

Cook's contention
now is that this
amount is quite
inadequate he
says that the Hospital

value of Rs. 1350.
The Bangalore Hotel
with its 48 rooms
requires therefore
proportionately more,

From

To
The Secretarto Govt of Mysore,
Genl &ev. Departments.

Sir,

I have the honor to brg before the Government for very special and favourable consleration the necessity of enabling the Public Works Department o complete the equipment of the Central College Students' Hitel, now approaching completion, with some items for which i appears that no provision was made in the original estimate se, up by that Depatment, but which are absolutely necessary beore I can permit of its being occupied by students

The Hostel will provid for accommodation of 96 students It consists of two similar locks, each containirg 24 roors and each room intended for two tudents

One block is for Brahmns and the other for non-Brahmins and each block is provided ith a separate kitchen, dining room, bathing rooms &c ,There aretwo wall cup-boards in each room but at present each cup-board cnsists merely of shelves in an open recess of the wall. It is alsolutely necessary that orch be fitted with wooden doors, lck and key for the safer custody of the student's property Thi has been done in the Mysore Students' Home The Executive Engineer estimates the cost of 96, being so completed, at Rs 240/-

Further no provision was made for furniture and it is necessary that each studort should have a table, a chair, and a reading lamp The Executive Engineer's estimate is Rs 12/- for each table, Rs 5/- for each chair, and Rs 5/- for each lamp and as there will be 9o of each, this makes a sum of Rs 2112/-, but I should imagine that they aight be obtained for somewhat less,

The lower veranddh sho be provided with cast-iron railing similar to that of the er verandah so as to prevent access to the rooms except bye steps This the Executive Engineer estimates at Rs 1143/-

Again the kitchen is useless without the necessary cooking and other utensils, but no provision has been made for this in the original estimate and the Mysore Students' Home was provided with such by the Government a cost of and the Executive Engineer has estimated for t Hostel here at Rs 315/- He does not state whether the cookingvessels are ordinary copper ones or aluminium ones such as I suggested to him some time ago I understand that the Victoria Hospital is to have aluminium cooking vessels and that it is probable they may have been introduced in the Jail I am informed by Major Smyth they have already been introduced in the Madras hospital and I shall ascertain when I shall be in Madras whether sh have been provided for the new Victoria Hostel there

The compound wall originally provided in the D P W estimate appears to have been merely a plain dead wall of the most common description and I have been urging on the D P W about the advisability of a more ornamental wall as it will make such a difference to the general apparance of the buildings when seen from the road, which is one o the main roads leading to the City and along which H H The Maharaja, the Royal family, and the better classes generally, who live on the High Ground, so frequently pass The increase on the estimate necessitated by this will be about Rs 1400/-

Lastly no provision seems to have been made in the original estimate for the Superintendent's Quarters In Mysore the Superintendant has been provided for and in Madras a very fine house has been provided for the Warden, as he is called, of the Victoria Hostel Had there been any available house near, which could have been rented, the building of separate quarters would not have been necessary but there is none such available and t

D P W estimate for Superintent's Quarters with out-houses complete is Rs 3858/- Unt ch quarters can be provided we shall have to do the best ible in the circumstances by making the Superintendent lin one or two of the student's rooms, but, as he will havebe on the premises night and day it is obvious that provisicst be made for the accommodation of his wife and family and efore that separate quarters near the front corner of the Hoscompound will have to be built as soon as possible

The Chief Engineer inf me that the Government have been under the necessity of reduc his budget estimate for the year and that he has in consequenmo funds for the extra sum- between 11000 and 12000 rupees;ich the several requirements will absorb

I have no knowledge wher the amount of the Educational Budget for the current year ld be indented upon to provide in whole or in considerable pt the necessary sum But I earnestly beg that the Governmt may find some means of enabling a work of such inestimablvalue to the students of this College to be satisfactorily mpleted Every day brings me evidence of the straits to which great many of the students are reduced by the recrudescence the plague in the vicinity of the wretched hotels, where th now have to reside

A short time ago I had enquiry from the Registrar of the University as to what steps h been taken in connection with this College to carry out the ew rules of the University, which require that students shall lie either with their parents or relatives or in a Hostel beloning to the College or in lodging houses recognised by the Colleo authorities

I have seen several of th so called hotels in which many of our students have now to re ide but I have never seen one that I could recognise as anything but highly insanitary and in every way unsuitable

I trust therefore that the Governement may see the reasonableness of the proposals which I so urgently make

I have the horor to be,

Sir,

Your most obedient servant,

Principal

27th November 1900.

From
The Principal,
Central College, Bangalore.

To
The Secretary to Govt. of Mysore,
Genl & Rev Departments.

Sir,

I have the honor to acknowledge receipt of Government Order No.7226-9 Ed.F.42-46, dated 23rd November 1900, in which I am requested to arrange for the supply of furniture and kitchen utensils to the Students' Hostel here but I have the honor to point out that no reference is made to my letter No 218 dated 19th November 1900, in which I explained that the amount provided by the D.P.W Mysore for utensils of the Maharaja's College Hostel was Rs.1370.

I have the honor to enclose detailed particulars of the vessels for the Mysore Hostel - (1) for the Brahmin kitchen, (2) for the vegetarian non-Brahmin kitchen, (3) for the non-vegetarian non-Brahmin kitchen.

I have the honor to request that, as the Central College Hostel is larger than that of Mysore, a proportionately larger sum than that sanctioned for Mysore may be sanctioned for Bangalore Hostel I understand that there are 36 rooms in the Mysore Hostel while there are 48 in the Bangalore one (each room to accommodate two students) a proportionate sum will therefore be Rs 1370 + ⅓ of Rs 1370=Rs 1830 If I am empowered to expend upto this amount and further to procure such of the vessels in aluminium as may be suitably made of that metal, I shall endeavour to see that there is no unnecessary expenditure and to cut down the total amount as far as possible

I am informed by the Agent of the Alumirium Company that the cost of aluminium is now practically the same as that in brass or copper The Government Order received contains no reference to the question of aluminium versus brass or copper.

17

I have the honor to enquire whether the Government Order implies that the provision of furniture,(tables, chairs, lamps) for the students' rooms is to be entrusted to me, or to vest in the D P W If entrusted to me, I shall endeavour to see that th expenditure on this head be also reduced as far as possible
